

October 15, 2015

Dear Citizens:

The Council is excited with the opportunity to address the most common complaint heard regularly from the citizens regarding the condition of the streets. To address this issue, the Council adopted a Street Improvement Fee of \$8.00 per month per household or business effective October 1, 2015. This fee will provide funding of approximately \$750,000 for additional street projects in addition to the amount already being spent. The collected amounts will go directly to a separate fund to allow the Council and Citizens to account for the revenues and expenditures and track how the money is spent. A webpage has been developed to allow for easy access to the information. Please go to the City of Corsicana website at www.cityofcorsicana.com and click on the Street Improvement Fee Accountability link for more information.

Senior Citizens are required to apply annually for the reduced rate of \$7.00.

Hopefully the Citizens will also be excited to see the accountability of the fund and the progress on the streets in the months to come.

Sincerely,

Chuck McClanahan
Mayor
