REQUEST FOR CONFIDENTIALITY OF PERSONAL INFORMATION: I request any personal information held by the Utility Department which is necessary for my water utility account be held as confidential and not released unless requested by only the exceptions stated under House Bill 859. Yes_____ No_____

By signing below, you certify that the information provided above is complete, accurate, and correct to the best of your knowledge. If false information has been provided, the City of Corsicana, at its option, may terminate service. The City of Corsicana and its employees/agents are not responsible for property damage resulting from open faucets or water system leaks. Please ensure all interior and exterior faucets and water using devices are completely turned to the off position prior to the time our service technician arrives to connect the meter. An additional service charge may be applied to your utility account for multiple trips.

Signature of Primary Business Owner/Partner/Authorized Agent: _____

Date: _____

CITY OF CORSICANA WATER SERVICE AGREEMENT

- I. PURPOSE.** The City of Corsicana (“City”) is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution system construction or configuration. The purpose of this service agreement is to notify each customer of the restrictions to ensure the public health and welfare. Each customer must sign this agreement before the City will begin service. In addition, when service to an existing connection has been suspended or terminated, the City will not re-establish service unless it has a signed copy of this agreement.
- II. RESTRICTIONS.** The following unacceptable practices are prohibited by State regulations.
- A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
 - B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
 - C. No connection which allows water to be returned to the public drinking supply is permitted.
 - D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.
 - E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.
- III. SERVICE AGREEMENT.** The following are the terms of the service agreement between the City and _____.
- (Printed Customer Name)
- A. The City will maintain a copy of this agreement as long as the customer and/or the premises are connected to the water system.

**CITY OF CORSICANA
WATER SERVICE AGREEMENT**

- B. The customer shall allow his property to be inspected for possible cross-connections and other potential contamination hazards. These inspections shall be conducted by the City or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. The inspections shall be conducted during the City's normal business hours.
- C. The City shall notify the customer in writing of any cross-connection or other potential contamination hazard which has been identified during the initial inspection or the periodic re-inspection.
- D. The customer shall immediately remove or adequately isolate any potential cross connections or other potential contamination hazards on his premises.
- E. The customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the City. Copies of all testing and maintenance records shall be provided to the City.

IV. ENFORCEMENT. If the customer fails to comply with the terms of the service agreement, the City shall, at its option, terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the customer.
