Pursuant to Chapter 182, Section 052 of the Texas Utilities Code, a government-operated utility may not disclose a customer's personal information (i.e. phone number, social security number, or forwarding address). Would you like to keep your account history information confidential? YES NO

I certify that the above provided information is true and correct to the best of my knowledge. I understand that if false information has been provided, the City of Corsicana (City) at it option, may terminate service. Further, I acknowledge that service orders initiated after 1 p.m. will be serviced the next business day. Additionally, I will ensure all faucets and water related appliances are completely turned to the OFF position. I understand that the Meter Services crew will monitor for consumption when turning the water meter on and if water continues to flow into the property, the crew member will attempt to contact me at the door. If no contact is made, a tag will be hung from my door advising why water was not turned on. If there are any open faucets or water system leaks that cause damage to the property, I agree NOT to hold the City of Corsicana responsible for any damage arising thereon. **Customer**

Signature _____ Date: _____

**CITY OF CORSICANA
WATER SERVICE AGREEMENT**

- I. **PURPOSE.** The City of Corsicana (“City”) is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution system construction or configuration. The purpose of this service agreement is to notify each customer of the restrictions to ensure the public health and welfare. Each customer must sign this agreement before the City will begin service. In addition, when service to an existing connection has been suspended or terminated, the City will not re-establish service unless it has a signed copy of this agreement.

- II. **RESTRICTIONS.** The following unacceptable practices are prohibited by State regulations.
 - A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.

 - B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.

 - C. No connection which allows water to be returned to the public drinking supply is permitted.

 - D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.

 - E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.

- III. **SERVICE AGREEMENT.** The following are the terms of the service agreement between the City and _____.

(Printed Customer Name/ Nombre)

 - A. The City will maintain a copy of this agreement as long as the customer and/or the premises are connected to the water system.

**CITY OF CORSICANA
WATER SERVICE AGREEMENT**

- B. The customer shall allow his property to be inspected for possible cross connections and other potential contamination hazards. These inspections shall be conducted by the City or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. The inspections shall be conducted during the City’s normal business hours.
- C. The City shall notify the customer in writing of any cross-connection or other potential contamination hazard which has been identified during the initial inspection or the periodic re-inspection.
- D. The customer shall immediately remove or adequately isolate any potential cross connections or other potential contamination hazards on his premises.
- E. The customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the City. Copies of all testing and maintenance records shall be provided to the City.

IV. ENFORCEMENT. If the customer fails to comply with the terms of the service agreement, the City shall, at its option, terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the customer.
